

CypressEra AI Knowledge Base

The AI Knowledge Base lets you upload your own documents—standards, manuals, project notes—so the AI assistant can reference them during analysis.

Example

Upload a document on NERC TPL-001 transmission planning standards, then ask:

“What are P6 contingencies?”

The AI retrieves relevant passages from your document and answers with source-backed accuracy.

Getting Started

Click “+” button and upload a PDF, DOCX, or TXT file.
